The figure displays a 2D environment with a grid from -50 to 50 on both the x and y axes. A dashed line represents a trajectory starting from the bottom right (around x=40, y=10), moving left towards x=10, then up and left towards x=-20, y=50, and finally turning sharply to the left towards x=-40, y=35. Numbered obstacles (1-19) are distributed throughout the space. Obstacles 1, 2, 4, 6, 7, 8, 10, 13, 16, 17, and 19 are represented by line segments. Obstacles 3, 5, 9, 11, 12, 14, 15, and 18 are represented by rectangular shapes. Obstacle 12 is a cluster of several parallel line segments. Obstacle 11 is a curved barrier at the top center. Obstacle 3 is a vertical line of points on the right edge.
